RELEASEDATE: 2005-10-20

RELEASEINFO

Staub delivers three electronic tracks of the deepest kind on this first release, which clearly represents the moodier side of plainaudio. □

"Little by little" is a melancholic, yet fluffy electronica piece displaying Staub's talent for atmospheres and vibes. Think grainpads and 808 drums. □

The second track "Back then" is an homage to oldschool techno and one of these tunes, that keep digging deeper and deeper whilst □
maintaing a laid back groove. □

Last but not least there's "Schizoid", which could be best described as "psychotic techno": weird background vocals, intriguing hookline and bizarre melody-bits. □

Now, that's entertainment. □
